

Request for Council Action

| | |
|----------------------------------|--------------------------------------|
| Originator Community Services | Item Hyland Greens Options |
| Agenda Section Study | Date 6/8/2015 |

Description

A changing golf industry has led to a decline in business at Hyland Golf and Learning Center and created an ongoing operating loss. On October 21, 2014, staff provided the City Council with a history of Hyland Greens and its financial condition and discussed five potential alternatives for its future. At that meeting, the City Council directed staff to conduct further study and research and return in June with a more detailed analysis of the alternatives. See the attached memo for the additional information that Council requested.

Requested Action

Review the options presented for Hyland Greens and provide direction to staff on which alternative to pursue.
